Provide services

- Driveway grading
- Fencing (to keep goats away from trees)
- Chainsaw work: we have lots of already felled trees and large stumps that need to be chopped up
- Painting: our alpaca barn and infirmary barn are in need of repainting
- Gutters: gutters need to be installed on the alpaca barn in order to prevent erosion. Some existing gutters need repair.
- General handyman work: we have a great team of volunteer and would love to get more folks involved.
